Elevation gain: 1000 m
Length: 4000 m

Winter 2010-2011

the Pejo 3000 cable car that, from the Tarlenta area, goes all the way up to an elevation of 3000 meters to the heart of the Ortles Cevedale mountain range. This lift system, which rises up through the Valle della Mite, will give skiers the chance to plunge down a thrilling 8 km descent taking them down to Pejo Fonti. This new cable car will give skiers the opportunity to once again ski down the legendary Val della Mite slope, one of the most beautiful and amazing descents in all of the Alps, which now has a longer track and an increased slope.
